Business Internet

→ Business Internet built just for business

Quality internet is essential for every business but not all internet plans are built for business. Unlike the big telcos, we're business internet specialists. TasmaNet Business Internet is built for customers that know that advertised download speeds don't mean much if your business data is competing with the neighbourhood Netflix traffic over a connection with too many subscribers.

→ Business Capacity: dedicated fibre

If your business depends on 24/7 superfast connectivity, TasmaNet delivers symmetrical upload and download speeds up to 1 Gbps using nbn™ Enterprise Ethernet technology. Ask us today how you can upgrade to dedicated end-to-end fibre at your business, anywhere in Australia within the nbn™ fixed line footprint - and you'll be amazed at how cost-effective fibre installation can be!

→ Business Standard: above average!

If you're looking for great value business grade nbn™ delivered over FTTN/B/P or Fixed Wireless connections, TasmaNet provisions services on speed tiers from 50 - 250 Mbps. We're an accredited nbn™ Wholesale Service Provider so we control congestion at every level of the network to ensure that your nbn™ service delivers the business outcomes you expect.

→ Connect all your business sites

We're also expert at building resilient and secure Managed Private Networks using the best connectivity options available, including the TasmaNet Wireless network we built to connect rural businesses left stranded by the big players.

Talk to us today and get on with business!

SUPERFAST + UNLIMITED DATA

Unlock cloud solutions like data backup, internet security, and software-as-a-service to power your business growth.

CHOOSE YOUR TECHNOLOGY

We deliver superfast speeds nationwide using nbn™ Enterprise Ethernet, fixed line, or fixed wireless connection technology.

UNCROWDED CONNECTIVITY

Unlike other telcos we don't oversubscribe our plans and we tell you how many subscribers share your bandwidth.

PRIORITISE CRITICAL TRAFFIC

Our bandwidth configuration lets you prioritise business-critical data traffic according to your business requirements.

BUSINESS FOCUSED SUPPORT

Get expert local support from our 100% Australian service desk and trusted service partners - wherever you do business.

TasmaNet Business Internet

→ Business Capacity: cost-effective, dedicated & superfast fibre direct to your door!

TasmaNet Business Capacity Internet brings dedicated end-to-end fibre to any business in Australia located within the nbn™ fixed line footprint, using nbn™ Enterprise Ethernet technology to deliver superfast symmetrical speeds from 10 Mbps - 1 Gbps.

Business Capacity pricing is determined by which of the three nbn™ Enterprise Ethernet delivery zones your premises are located within, as well as the service speed you select for your connection. Ask us for a no obligation quote today!

→ Business Standard: unlimited & uncrowded internet that's anything but standard!

TasmaNet Business Standard Internet plans deliver unlimited, uncrowded, superfast broadband internet over nbn™ FTTN/B/P and Fixed Wireless connections.

Ask us about Traffic Class upgrades to keep your business-critical IP telephone and video conferencing connected, no matter how busy your business grows.
