

License Mobility

Eligible Microsoft server applications can often be deployed on cloud infrastructure using existing licenses. This allows you to more easily move your workloads to cloud infrastructure without any additional Microsoft software licensing fees. This benefit is available to Microsoft Volume Licensing customers with eligible server applications covered by active Microsoft Software Assurance (SA) contracts.

Sign Up

All customers using License Mobility through Software Assurance must complete a license verification process and Microsoft will ensure that you have eligible licenses with active Software Assurance. To start the verification process and review additional details, go to <http://www.microsoft.com/licensing/software-assurance/license-mobility.aspx>.

The License Mobility Verification Form has a section to provide information about the Authorized Mobility Partner. Please use assets@tasmanet.com.au as the email address, **TasmaNet Pty Ltd** as the partner name, and www.tasmanet.com.au as the partner website. For further guidance, consult [Microsoft's License Mobility Verification Guide](#) (pdf).

Microsoft will provide confirmation to you and to TasmaNet that you have completed this verification process. You may deploy your application server software prior to the verification process being completed. In fact, you can deploy up to ten days before submitting the form. You are responsible for managing true ups and renewals as required under their agreement.

Eligibility Requirements

To take advantage of this benefit, the following conditions must apply:

1. All Microsoft Server application products migrated to TasmaNet IaaS via the License Mobility through Software Assurance program must be covered with active Software Assurance (SA).
2. The server applications must be on the list of eligible products. The list includes:
 - Exchange Server
 - SharePoint Server
 - SQL Server Standard Edition
 - SQL Server Enterprise Edition
 - SQL Server Business Intelligence Edition
 - Skype for Business Server
 - System Center Server
 - Dynamics CRM Server
 - Dynamics AX Server

- Project Server
- Visual Studio Team Foundation Server
- BizTalk Server
- Forefront Identity Manager
- Forefront Unified Access Gateway
- Remote Desktop Services

To view a full list of eligible server application products, see the Microsoft Product Terms at <http://www.microsoft.com/licensing/about-licensing/product-licensing.aspx>

3. Eligible Volume Licensing programs include the Enterprise Agreement, Enterprise Subscription Agreement, and Microsoft Open Value Agreement, where Software Assurance is included, and other Microsoft Volume Licensing programs where Software Assurance is an option, such as Microsoft Open License or Select Plus
4. You maintain appropriate Client Access Licenses (CALs) with Software Assurance in your Volume Licensing agreement for accessing the application servers.
5. Does not include the Microsoft Windows Client operating system, Desktop application products (e.g. Microsoft Office), and Microsoft Windows Server operating system.

For more detail on Microsoft License Mobility, please contact your TasmaNet Account Manager.
