Veeam Cloud Connect

→ **Cloud Connect from TasmaNet unlocks easy offsite cloud backup solutions for Veeam customers.**

Take advantage of the Veeam Cloud Connect repository in our data centre to maintain an offsite backup your on-premises infrastructure .

Cloud Connect enable off-site backup storage as part of a comprehensive availability strategy, embracing virtualisation and storage investments for customers in our data centre and extending them through the hybrid cloud.

→ ## Master 3-2-1 Backup

The 3-2-1 rule states that you need to keep three copies of your data, stored on two types of media, with one copy being off site. Getting backups off site can be challenging due to limited bandwidth, exploding data volumes, and the resources required to build or maintain an offsite backup repository.

With Cloud Connect, you can master the 3-2-1 rule without dumping money and resources into a second site or adding bandwidth — just leverage cloud backup repository services from TasmaNet and take advantage of Veeam's built-in WAN Acceleration technology.

→ ## Secure and Flexible

TasmaNet provides a Cloud Connect repository to customers through a secure SSL connection with no additional Veeam licensing required.

Cloud Connect from TasmaNet offers a flexible and cost effective self-service backup solution. Access and recover your data at any time using your Veeam console.

Our subscription-based pricing model lets you manage costs and select only the storage you need.

Product Overview

Cloud Connect suits businesses of all sizes looking to use their existing Veeam licensing to enable off-site backup storage as part of a comprehensive data availability and security strategy.

SMALL | **MEDIUM** | **LARGE**

MASTER 3-2-1 BACKUP
Master offsite data backup challenges and secure your business with 3 copies, 2 media types, and 1 offsite data storage.

SECURE STORAGE
Single-port connectivity via a secure, reliable TLS/SSL connection to a service provider with traffic encryption.

SELF SERVICE SOLUTION
Access and recover your data anytime using your Veeam console. Manage your backup schedule to suit your business.

COST EFFECTIVE
No additional Veeam licensing required. Save on maintaining your own offsite backup repository or adding bandwidth.

SCALABLE SUBSCRIPTION
Track your cloud repository consumption and pay only for the backup storage you need with our scalable subscription model.
